

Standard RAL Colours

About the RAL colour system

RAL is an European colour matching system (CMS) which defines colours for paint, coatings and plastics. The RAL colour standard is administrated by the **RAL Deutsches Institut für Gütesicherung und Kennzeichnung**. 'RAL' is the abbreviation of 'Reichs-Ausschuß für Lieferbedingungen und Gütesicherung'. This name can be translated in English as 'National Commission for Delivery Terms and Quality Assurance'.

Any of our GRP products can be produced in any RAL colour; there may be minimum order requirements and a lead time of 12 weeks. The standard stock colours are as follows:
